

# Felco Bucket Options

## Custom Ears

Felco makes the ears on each bucket to the excavator's OEM specifications or to fit the quick coupler.

## Bolt-On Cutting Edge

Extend the life of the Felco bucket lip with a replaceable cutting edge.

## Adapter & Tooth Kits

Both weld-on and bolt-on styles of tooth kits are available for added digging capability.

## Pins

Felco pins are a perfect fit for Felco buckets.

## Replacement Ears

Felco can send a replacement set of ears for the current Felco bucket, ready to weld on.

## Axle Repair Assembly

Axle assemblies offer a quick and easy way to revive the Roller Bucket.

## Replaceable Scraper Teeth

Worn scraper teeth are easy to remove and replace.

## D-Rings

Add lifting capabilities to buckets.
